FALL / WINTER 2026

Photo by Tyler Ravelle

The Switch Skull in Snow Camo, Pg 18

One Brand. Every Headwear Need.

At Coal, we don't just make merch - we design gear with purpose.

Headwear is all we do, and we do it for real life. From early morning powder laps to late-night city action. From parenting duties to backcountry adventures. Beanies, tech facemasks, multi-use caps, fleece, and kids - we've got you covered up top.

Not everyone lives in one lane. Their headwear shouldn't either.

This collection is your one-stop headwear solution.

ELEVATED FOR YOU

We believe headwear is more than an accessory - it's a reflection of who you are and how you move through the world. The right hat communicates identity, community, and self-expression, stitched into something you want to wear.

Fall / Winter 2026 is our **System Reset**: We went deep and refined the product line with stronger categories and a sharper point of view. Every piece is designed to move between alpine missions, city routines, and everything in between - with purpose and style, not just product.

This season blends bestsellers with bold new energy across tech, fleece, fashion, and kids - all unmistakably Coal.

Welcome to what's next.

Travis Rice coal

Built for the Extreme.

Whether you're chasing lines or caught in a storm on your morning commute, Coal's technical collection adapts to the moment.

For the Travis Rice Collection, we worked closely with Travis to elevate fit, functionality, and comfort - using game-changing materials and refined designs to create the best masks available.

"Gear is only good if it disappears. It's got to work so well you forget it's there." - Travis Rice

A Better Blend, Built for the Future.

Sustainability updated. Just as soft, just as strong.

We’ve updated the yarn on key styles to feature a new, more responsible blend - 50% Recycled Polyester and 50% Acrylic. This low-impact fiber combination reduces waste while maintaining the warmth, softness, and structure you expect from Coal.

It’s a small shift with a big payoff: less environmental impact, same trusted quality.

Torstein x Coal

This limited FW26 beanie is made with sustainably sourced sheep's wool and designed in collaboration with snowboarding icon Torstein Horgmo.

Torstein came to us with the request for a beanie that blends comfort, natural materials, and low-impact product. The result reflects his values as much as his style.

Cozy, clean, and built with style and substance.

Kazu Kokubo x Coal

Kazu doesn't follow trends - he sets them.

For this collaboration, we worked closely with him and his fashion label, Nomadik, to develop a highly functional, military-inspired hat for the harshest environments. The Kazu 777 features an elevated earflap cap with covert details, premium construction, and a silhouette that's as purposeful as it is stylish.

Designed for snow-covered missions but just as at home in the city.

Active Caps

Modernized Everyday Utility.

Built for fans and friends of the Bombhole culture.

Outside

Jamie Anderson x Coal

Jamie Anderson has always done things her own way, from redefining women's snowboarding to living close to nature and starting a family. Now as a mom, she's still out there riding, skating, and exploring with her kids - and sharing the stoke along the way.

This capsule of cozy beanies and caps is made for moments like those - color-matched for parents and kids who play outside together.

Designed with warmth and connection in mind, each piece carries the spirit of legacy, family, and nature.
