

# Who is owala?

At Owala, we bring life back to life. We design everyday essentials that make it a snap to quench some thirsts and awaken others. From the water bottle that goes with you on every adventure, to the cut-throat game of pickleball that has you howling for a rematch, Owala helps you say yes to more of life's spontaneous moments.

Owala is made by and for “what if” people, “why not” people, and “shoot your shot” people. We don't check boxes here. We chase wonder.

**Owala: Where boring ends.**
